

MTD

TAPPING TEE TOOLS

FOR MTD TRIFUSION STANDARD TAPPING TEES

SAFETAP TOOLS

T-HANDLE TOOL

MTD Tapping Tee tools are designed for efficiency. Each tool slots into the cutter with no additional tooling needed. Additionally, we offer SafeTap versions of each tool which includes an aluminum cap to keep the tool in place and eliminate any blow-by.

- Solid steel construction
- Equipped with travel stops, which bottom out to indicate tap is complete
- Laser engraved retraction lines to indicate full retraction of the cutter
- SafeTap tools are equipped with sealing elements which prevent blow-by during operation
